Assistant Legislative Counsel

To 5:

Concur with your suggested comments and conclusions on the proposed bills relating to financial disclosure by Federal employees. My only suggestion would be to strengthen the objection you noted with respect to the identification of Agency personnel. One of the bills mentioned would include employees at the GS-11 level, a group which would encompasses a substantial number (if not an overwhelming majority) of the professional and technical people in the Agency. The identification of this large segment of Agency personnel would in my opinion pose more than a "grave problem" but would seriously inhibit the Agency's ability to conduct its basic intelligence mission.

1. Director	10/24	10/27	WEC/61P	Over 30 bills have been introduced this Congress to require a detailed financial statement to be submitted to the Comptroller General by all Federal employees making a specified salary. Some bills set this salary as low as \$18,000. Our primary objection to these bills is their provision that these statements shall be public records i.e. <u>any</u> member of the public can gain access to them. We have not been asked for our comments on these bills by any of the four Committees to which these proposals have been referred. However, the problems for CIA are so serious and the conflict with Section 6 of the CIA Act so obvious that we want to volunteer our comments. Attached for your signature are four very similar letters to the Chairmen of the four Committees with jurisdiction of these bills. This package has been coordinated with OGC, Secur
